FLIGHT REVIEW

[Type text]

Pilot _____ Examiner _____ Date _____

1. What part of the FARs governs certification of pilots? _____
2. What part of the FARs governs the operation of aircraft and flight rules? _____
3. What class of medical certificate is required to exercise the privileges of the following certificates, and what is the duration of each?

	CLASS	Duration
Student		
Private		
Commercial		

4. Who is directly responsible for, and the final authority for the operation of the aircraft? _____

5. What preflight planning action must be taken by the pilot in command in addition to the walk-around inspection of the aircraft? _____
6. When must seat belts be worn? _____
Are there any exclusions? _____
7. What is the minimum time from bottle (alcohol) to throttle? _____
8. What documents are required to be in the aircraft at all times:
By the FAA?
 - a. _____
 - b. _____
 - c. _____
 - d. _____

By the FCC? _____

9. What instruments and equipment are required for:
 - a. VFR day flight?
 - 1) _____
 - 2) _____
 - 3) _____
 - 4) _____

- 6) _____
- 7) _____
- 8) _____
- 9) _____
- 10) _____
- 11) _____
- 12) _____
- 13) _____
- 14) _____
- 15) _____

b. VFR Night flight?

- 1) _____
- 2) _____
- 3) _____
- 4) _____
- 5) _____
- 6) _____

10. What are the right-of-way rules for:

- a. Converging traffic? _____
 - b. Head-on traffic? _____
 - c. Overtaking traffic? _____
 - d. Landing? _____
- _____
- _____

11. When are position lights required to be on? _____

12. What are the requirements for recency of flight experience for a pilot operating an aircraft of the same category and class? _____

13. What are the requirements for recency of flight experience for a pilot to carry passengers operating an aircraft of the same category and class:

- a. In a tricycle gear airplane? _____
- _____
- b. In a tailwheel airplane? _____
- _____

17. Under what circumstances may a pilot deviate from instructions given by ATC? _____

18. What do the following light gun signals mean?

COLOR	ON THE GROUND	IN THE AIR
Steady Green		
Flashing Green		
Steady Red		
Flashing Red		
Flashing White		
Alternating Red and Green		

19. What direction should all turns be made in the traffic pattern when approaching to land at an airport without an operating tower? _____

Are there any exceptions? _____

20. What does LAHSO mean? _____

FLIGHT REVIEW

21. What are all the visibility and cloud clearance requirements for VFR flight in the following airspace?

ALTITUDE	VISIBILITY	Cloud Clearance
Class A		
Class B		
Class C		
Class D		
Class E:		
Less than 10,000 feet MSL		
At or above 10,000 feet MSL		

FLIGHT REVIEW

Class G:		
1,200 feet or less above surface (regardless of MSL altitude)		
Day, except as provided in 91.155(b)		
Night, except as provided in 91.155(b)		
More than 1,200 feet above the surface but less than 10,000 feet MSL		
Day		
Night		
More than 1,200 feet above the surface and at or above 10,000 feet MSL		

22. What is the standard traffic pattern altitude? _____

List two exceptions:

1) _____ 2) _____

23. What are the weather minimums at airports located in Class D and E airspace if the pilot is operating VFR? _____

Is there an option to fly legally when the weather is below these minimums? _____

24. Define the following airspeeds:

- V_{so} _____
- V_{s1} _____
- V_r _____
- V_x _____
- V_y _____
- V_a _____
- V_{no} _____
- V_{ne} _____
- V_{lo} _____
- V_{le} _____
- V_{fe} _____
- V_c _____

25. What is vertigo? _____

26. What is hypoxia? _____

27. What is the cause of hypoxia? _____

28. What are some of the symptoms of carbon monoxide poisoning? _____

29. When is supplemental oxygen required:

- a. For pilots? _____
- b. For passengers? _____

After completing this quiz, discuss any questions with your instructor or check pilot.
