- 14) _____
- 15) _____
- _____

b. VFR night flight?

- 1) _____
- 2) _____
- 3) _____
- 4) _____
- 5) _____
- 6) _____
- _____

- 10. What are the right-of-way rules for:
 - a. converging traffic? _____
 - b. head-on traffic? _____
 - c. overtaking traffic? _____
 - d. landing? _____
- 11. When are position lights required to be on? _____
- 12. What are the requirements for recency of flight experience for a pilot operating an aircraft of the same category and class: _____
- 13. What are the requirements for recency of flight experience for a pilot to carry passengers operating an aircraft of the same category and class:
 - a. in a tricycle gear airplane? _____
 - b. in a tailwheel airplane? _____
 - c. in a seaplane? _____
 - d. for night operations? _____
- 14. What time is considered "night" for the purposes of logging pilot flight time? _____

BIENNIAL FLIGHT REVIEW

15. What is the minimum altitude for flight over:
- a. congested areas? _____
 - b. other than congested areas? _____
 - c. sparsely populated areas? _____

16. Define the following airspace.

Class A _____

Class B _____

Class C _____

Class D _____

Class E _____

Class G _____

17. Under what circumstances may a pilot deviate from instructions given by ATC?

18. What do the following light gun signals mean?

COLOR	ON THE GROUND	IN THE AIR
Steady green		
Flashing green		
Steady red		
Flashing red		
Alternating red and green		
Flashing white		

19. What direction should all turns be made in the traffic pattern when approaching to land at an airport without an operating tower? _____
 Are there any exceptions? _____

BIENNIAL FLIGHT REVIEW

20. What does LAHSO mean? _____
21. What are all the visibility and cloud clearance requirements for VFR flight in the following airspace?

ALTITUDE	VISIBILITY	CLOUD CLEARANCE
1200' or less AGL	---	---
Controlled:		
Uncontrolled Day:		
Uncontrolled Night:		
More than 1200' AGL, but less than 10,000' MSL	---	---
Controlled:		
Uncontrolled Day:		
Uncontrolled Night:		
More than 1200' AGL and above 10,000' MSL		

22. What is the standard traffic pattern altitude? _____
List two exceptions. _____
23. What are the weather minimums at airports located within Class D and E airspace if the pilot is operating VFR? _____
Is there an option to fly legally when the weather is below these minimums? _____

BIENNIAL FLIGHT REVIEW

24. Define the following airspeeds.

Vso _____
Vs1 _____
Vr _____
Vx _____
Vy _____
Va _____
Vno _____
Vne _____
Vlo _____
Vle _____
Vfe _____
Vc _____

25. What is vertigo? _____

26. What is Hypoxia? _____

27. What is the cause of Hypoxia? _____

28. What are some of the symptoms of carbon monoxide poisoning? _____

29. When is supplemental oxygen required:

a. for pilots? _____

b. for passengers? _____

Discuss any questions you may have after completing this quiz with your instructor or check pilot.
