

Cirrus Candidate: \_\_\_\_\_

Title	Lesson																				
	Date																				
	CFI																				
	Flight Time																				
	Ground Time																				
	Workbook																				
	CIRRUS Preflight																				
	Avionics Cockpit Training																				
	CAPS Utilization																				
Ground Ops	Engine Start																				
	Before Taxi and Taxi																				
	Before Takeoff																				
	After Landing																				
	Shutdown																				
Traffic Pattern Ops	Normal Takeoff																				
	Short-field Takeoff																				
	Soft-field Takeoff																				
	Normal Landing																				
	Short-field Landing																				
	Soft-field Landing																				
	50% Flap Landing																				
	0% Flap Landing																				
	Go Around																				
	Power-off Landing																				
Airwork	Steep Turns																				
	Slow Flight																				
	Power Off Stalls																				
	Power On Stalls																				
	Autopilot Stall Recognition																				
	Unusual Attitude Recovery																				
Enroute	Climb																				
	Initial Cruise																				
	Cruise (Nav, AP, Lean)																				
	Descent and Arrival Procedures																				
	Traffic Pattern																				
Instrument	Basic Attitude Instrument Flying																				
	Instrument Approach Procedures																				
	Missed Approach Procedures																				
	Holding Procedures																				
	Departure Procedures																				
	Arrival Procedures																				
	Circling Approach																				
	Partial Panel Approach																				
Emergency	AHRS Failure																				
	Air Data Computer Failure																				
	MFD Failure																				
	GPS Failure																				
	Autopilot Failure																				
	Alternator Failure																				
	Engine (Fire, Fail, Pwr loss)																				
	Flap Malfunction																				
	Open Door																				
	Cabin Fire																				
	TAWS Escape																				
	Inadvertent Ice Encounter																				
	Weather Diversion																				
	Emgy Approach and Land (CAPS)																				
Inadvertent IMC Encounter																					

I = Introduction  
P = Practice Maneuver  
S = Satisfactory Performance
